# WELCOME

Welcome to Nordic Powered Aerobatic Championships 2024. The Danish Aerobatic Assn. as organizers, look forward to hosting you at Stauning airport (EKVJ).

The small town of Stauning is located on the west coast of Denmark - in a beautiful location near the coast – and far from big cities.

Stauning Airport is home to many flying activities including old timer aircraft - notably the KZ airplanes built in Denmark. A museum on the airfield has a full collection of these fine flying machines as well as many other beautifully restored aircraft - many of which are in flying condition.

The NAC 24 will take place in the last week of August of 2024 – with training commencing on August 25<sup>th</sup> and competition ending on August 31<sup>st</sup>.

In the following, you will find the outline of the event and registration details.

Welcome, we are looking forward to seeing you, your fine aircraft and all our aerobatic friends in Stauning.

## Contest directors note to bulletin no. 4

The set-up for the competition has been adjusted to cater for the anticipated number of participants, compared to the announcement stated in earlier bulletins

We aim for a fun and exciting competition without a big overhead administration and organization. All levels of competitors are most welcome from Primary to Advanced. Focus is on sportsman and primary as new competition pilots may have more need for a welcoming and helping hand.

## Danish Aerobatic Association

The schedule and content of the competition has been adjusted to the number of participant so far having sign up. Please see the latest schedule below

## **REGISTRATION / ENTRY**

**Registration deadline 05.08.2024**

Entries to the NAC24 competition are on 'first come, first served' basis. Early entry registration is therefore encouraged.

Your entry is fully confirmed only when you have paid the entry fee. We advise you to do so upon submitting your registration form to secure your entry. The entry fee is non-refundable except at the discretion of the Contest Director in exceptional circumstances.

The maximum number of competitors in NAC is limited to 15 pilots.

The minimum number of competitors in NAC required for the competition to go ahead is 10 pilots.

Non-Nordic pilots may enter the contest, however, are not eligible for Nordic Championship prizes.

**The registration form is available on website: <https://www.nac24.dk/>**

## **Responsibilities of each competitor**

- a) As a participating competitor you must legally fly your aircraft – this is your own responsibility. The organizers will not take any responsibility.
- b) Please check that you have a valid license, medical, and all documents for the airplane are OK for the airplane to fly in the contest.
- c) Check the aircraft insurance is valid during the contest.
- d) The organizers will arrange an altitude waiver to fly down to 500' AGL (minimum altitude is 2000' AGL according to Danish CAA rules), starting from: 25.08.2024.
- e) It is your own responsibility as a pilot, that you may legally fly down to the minimum altitude in your class as defined in the NAC24 by IAC official rules for 2024 amended by Nordic Rules.

**Danish Aerobatic Association**

## **COMPETITION FLIGHTS and RULES**

Rules: MANIAC Nordic Championship rules

Sequences

**Primary:** Nordic rules. Two flights; '*Nordic Primary*' x 2

**Sportsman:** IAC rules. Two flights; IAC Known Compulsory x 2

**Intermediate:** IAC rules. Two flights; IAC Known Compulsory x 2,

**Advanced:** CIVA rules. Two flights; CIVA Free Known, CIVA Unknown #1

**Time allowing more flights** – a third flight will then be an unknown in all classes except Primary, where a third flight of the know (Nordic Primary) will be flown.

Priority will be given to achieve one flight programs in all classes should the schedule not allow for completion of all flights.

The minimum number of flights for announcement of results of competition in a class is one flights.

The organizer will provide all the unknown programs at the first briefing.

Starting order will be mixed to allow for optimum flight order.

Procedures for take-off, climb, box, descent and landing will be given at the welcome briefing

Results will be based on raw scores from the judges

Please note the competition has been aligned with the number of participants and the general level of the competition – a more optimized version or slimmed down if you like.
